C.1.5 Explain the measures, if applicable, which have been adopted to ensure that there is a sufficient number of female Directors on the board to guarantee an even balance between men and women.

Explanation of measures

Article 25.2 of the Regulations of the Board of Directors stipulates that the Appointments, Remuneration and Social Corporate Responsibility Committee's duties and responsibilities include establishing a goal concerning the representation of the less-represented gender on the Board of Directors and preparing guidelines on how this goal can be achieved, in line with the recommendations of the Good Governance Code.

C.1.6 Explain the measures taken, if applicable, by the Appointments Committee to ensure that the selection processes are not subject to implicit bias that would make it difficult to select female Directors, and whether the company makes a conscious effort to search for female candidates who have the required profile.

Explanation of measures

In order to select Directors, the Appointments, Remuneration and CSR Committee adheres to the provisions of the Director Selection Policy, approved by the Board of Directors at the request of this Committee on 21 November 2016. In application of this policy, the selection of a new Director takes into account at least the following criteria:

Suitable professional knowledge and experience. Appointments are limited to persons of recognised prestige and who possess knowledge and experience suited to the exercise of their functions.

Requirements derived from the Hydrocarbons Sector Law. Candidates must be able to satisfy the independence requirements demanded by Enagás' appointment as independent gas transmission network manager.

Requirements for Independent Directors. In addition to the previous criteria, which shall be applied to all Directors, regardless of their category, the persons selected in the category of Independent Directors must meet the requirements for independence under the provisions of the applicable law at all times, and the additional conditions for independence, as the case may be, stipulated in the company's internal regulations.

Commitment to fulfilling the duties and obligations of Directors. Proposals for re-election of current members of the Board of Directors shall take into account the commitment demonstrated by the Directors during the year in which they held office, in fulfilling the duty of diligence and the duty of loyalty, and all the regulations to which, in their condition of Directors and, where applicable, as shareholders or high-ranking member of the company, they are subject under the Internal Code of Conduct in Matters Relating to Securities Markets, the Enagás Group Code of Ethics, the Code of Conduct of the Technical Manager of the Spanish Gas System and other laws or procedures derived from their application. Likewise, it will be judged whether their actions in the exercising of their office has been in good faith and in the best company's interest.

The Board of Directors shall ensure that the nominations encourage diversity within the Board, whereby they must focus on preferably incorporating women and people who due to their nationality or experience have an international professional profile, in accordance with the company's new strategy. The nominations for appointment or re-election shall pursue the goal of having at least 30% of total board places occupied by women directors by the year 2020.

Enagás Directors selection processes shall at all times take into account any other conditions, where applicable, determined by the company's Appointments, Remuneration and CSR Committee and the applicable laws.

In addition, for the presentation of the proposed candidates, the Appointments, Remuneration and CSR Committee receives support from executive recruitment and development firms of recognised renown.

When, despite the measures taken, there are few or no female Directors, explain the reasons.

Explanation of measures

Enagás is aware that it must continue to encourage and facilitate the presence of women in the event of any vacancy arising on the Board, particularly for Independent Directors. In this regard, Enagás complies with article 8 of the Rules and Regulations of the Organisation and Functioning of the Board of Directors, which prescribes that selection procedures must be free of any implied bias against women candidates, and that the company shall seek out and include women with the target profile among the candidates for Board places.

At present, THREE (3) of the THIRTEEN (13) members of the Board of Directors of Enagás are women: MS ROSA RODRÍGUEZ DÍAZ, MS ANA PALACIO VALLELERSUNDI and MS ISABEL TOCINO BISCAROLASAGA. In addition, MS ROSA RODRÍGUEZ DÍAZ is a member of the Audit and Compliance Committee, MS ISABEL TOCINO BISCAROLASAGA is Chair of the Appointments, Remuneration and CSR Committee and MS ANA PALACIO VALLELERSUNDI is Lead Independent Director and member of the Appointments, Remuneration and CSR Committee.

C.1.6 bis Explain the Appointments Committee's conclusions on the checks carried out to ensure that the director selection policy is being complied with. Particularly whether the policy pursues the goal of having at least 30% of total board places occupied by women directors before the year 2020.

Explanation of conclusions

The report by the Appointments, Remuneration and CSR Committee of 9 February 2016 justifying the proposed re-election of a Director for the 2016 General Shareholders' Meeting includes the following:

"The Committee considers that thirteen members is a suitable number for the correct working of the Board, and therefore proposes that this number of Directors is maintained.

After the proposed appointment and re-elections, the Board maintains the number of its majority of independent members. Of its thirteen members, seven are Independent Directors, while the number of women on the Board will remain at three, and these women will moreover exercise important functions within the Board: Ms Isabel Tocino Biscarolasaga is Chair of the Appointments, Remuneration and CSR Committee; Ms Ana Palacio Vallelersundi is Coordinating Independent Director and Spokesperson for the Appointments, Remuneration and CSR Committee; and Ms Rosa Rodriguez Díaz, whose re-election is now put forward, is the spokesperson for the Audit and Compliance Committee.

Since 2012, the company has separated the posts of Chairman of the Board of Directors and Chief Executive Officer and since 2010 it boasts a Lead Independent Director, the post held by Ms Ana Palacio Vallelersundi, providing an additional guarantee that the Board is functioning properly.

C.1.7 Explain how shareholders with significant holdings are represented on the board.

SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES (SEPI) is currently the only shareholder with a significant holding that has a seat on the Board of Directors.

Moreover, MR JESÚS MÁXIMO PEDROSA ORTEGA was appointed, at the proposal of SEPI, as a Proprietary Director for the four-year term provided for in the Articles of Association at the General Shareholders' Meeting held on 24 April 2013.

(Continues in section H) OTHER INFORMATION OF INTEREST.- EXPLANATORY NOTE ON SECTION C.1.19).

C.1.20 Explain, if applicable, to what extent this annual evaluation has prompted significant changes in its internal organisation and the procedures applicable to its activities:**Description of amendments**

The evaluation focused on issues in which the Directors showed an interest or concern in the 2015 evaluation, with few comments by Directors on them, largely because of the new initiatives undertaken in 2016 to improve the preparation and development of the Board and Board Committee meetings. Certain individual areas of improvement were identified and the interest was shown in having specific information on the development of new international projects involving the company. Special attention was paid in this respect in 2016.

C.1.20.bis Describe the evaluation process and the areas evaluated by the Board, assisted, if applicable, by an external adviser, concerning diversity in its composition and skills, the functioning and composition of its committees, the performance of the Chairman of the Board and the Chief Executive Officer and the performance and contribution of each Director.

The Board evaluation process began via a resolution by the Appointments, Remuneration and CSR Committee appointing Morrow Sodali as an independent expert, based on its renowned solvency and prestige among international investors, particularly those with shareholdings in Enagás.

Morrow Soldali sent a questionnaire to each Director and conducted interviews with several key Directors, who issued their opinions on a series of questions related to the composition and structure of the Board and its committees, on the performance of the Board and its committees, on the relations and procedures of the Board and its committees, and on implementation of improvement plans.

C.1.20.ter Explain, if applicable, the business relationship the adviser or any group company maintains with the company or any group company.

Enagás does not have any direct contractual relationship (nor has had it in recent years) with SODALI other than the independent evaluation of the Board. However, Enagás engages Santander Global Corporate Banking for a variety of services related to its General Shareholders' Meeting which, in turn, includes certain services that this firm contracts with SODALI regarding advisory on the relations with international investors and proxy advisers.

C.1.21 Indicate the cases in which directors must resign.

In accordance with the Good Governance recommendations, articles 12.2 and 12.4 of the Rules Regulations of the Organisation and Functioning of the Board of Directors stipulate that:

- 2.- Directors must place their offices at the Board of Directors' disposal, and tender their resignation, if the Board deems fit, in the following cases:
- a) When they are affected by instances of incompatibility or prohibitions laid down in Law, the Articles of Association, and in these Regulations.
 - b) When they are in serious breach of their obligations as Directors.
 - c) When they may put the interests of the company at risk or damage its credibility and reputation. Once a Director is indicted or tried for any of the crimes stated in article 213 of the Corporate Enterprises Act, the Board shall examine the matter and, in view of the particular circumstances, decide whether or not the Director shall be called on to resign.
 - d) When the reason for which they were appointed as Directors no longer exists.
 - e) When Independent Directors cease to meet the conditions required under article 9.
 - f) When the shareholder represented by a Significant-Shareholder Appointed Directors sells its entire interest. They shall also do so, in the appropriate number, when that shareholder reduces its stake to a level requiring a reduction in the number of its Proprietary Directors.

Should the Board of Directors not deem it advisable to have a Director tender their resignation in the cases specified under letters d), e) and f), the Director must be included in the category that, in accordance with these Rules and Regulations, is most appropriate based on their new circumstances.

When a Director gives up his place before his tenure expires, through resignation or otherwise, he shall state his reasons in a letter to be sent to all members of the Board of Directors. Irrespective of whether such resignation is filed as a significant event, the motive for the same must be explained in the Annual Corporate Governance Report.

C.1.32 Explain the mechanisms, if any, established by the Board of Directors to prevent the individual and consolidated financial statements it prepares from being laid before the General Shareholders' Meeting with a qualified Audit Report.

The Board of Directors shall see to it that the Financial Statements and the Directors' Report provide a true and fair view of the company's equity, financial position and results of operations, in accordance with the law. The Board of Directors shall ensure that financial statements are presented in such a way that there are no grounds for qualifications by the company's Accounts Auditor, by taking into account all comments or recommendations that the Audit and Compliance Committee may have made previously.

As a committee delegated by the Board, the Audit and Compliance Committee is assigned certain competences that are effective mechanisms to prevent the financial statements compiled by the Auditor from being presented with qualifications in the audit report, according to Article 7 of the applicable regulation:

- Overseeing the preparation and presentation of financial information on the company and the Group, and checking compliance with regulatory requirements, the due definition of the scope of consolidation and correct application of accounting principles.
- Reporting to the Board of Directors on recommendations or comments it deems necessary on the application of accounting criteria, internal control systems and any other relevant matter, and in particular, to present recommendations or proposals to the Board of Directors to safeguard the integrity of such financial information.
- Ensuring that the Board of Directors endeavours to present the financial statements in such a way that there are no grounds for limitations or qualifications by the company's Accounts Auditor.
- Assessing any proposals made by senior managers regarding changes in accounting practices.
- Liaising with the External Accounts Auditor to obtain information on issues related to the procedure for auditing financial statements, and on potential safeguards to adopt and pre-empt conflicts that may arise.
- Reviewing the content of audits, limited review reports of interim financial statements and other required reports of statutory auditors prior to their issue in order to prevent qualifications.

During the financial year, the Audit and Compliance Committee shall meet with the Auditor quarterly in order to obtain their conclusions regarding the quarterly revision prior to the publication of results. Likewise, interim condensed consolidated financial statements are subject to a limited revision by the Accounts Auditor with the issuance of the corresponding report.

The competences of the Audit and Compliance Committee are designed to minimise the impact of any accounting aspect that becomes evident throughout the financial year, and allows the members of the Board of Directors and the Audit and Compliance Committee to be kept up to date on the most relevant aspects of the audit throughout the year.

The Enagás Code of Ethics serves as a code of conduct for all employees in their professional activities and in relation to all the company's stakeholders. Enagás has the necessary procedures to ensure due diligence in the issues related to this area, as well as an Ethical Compliance Committee, which is a collegiate body to which the Audit and Control Committee delegates management of the notifications and consultations concerning this matter.

Compliance with the Code of Ethics is mandatory for all employees, managers and administrators of Enagás, as well as its suppliers, contractors and collaborators or business partners in their spheres of the company. Affiliates have an ethics and compliance model that is appropriate for the environment they operate in.

The Enagás Audit and Compliance Committee, in accordance with the provisions of Article 7 of the applicable regulation, shall safeguard the independence of the External Accounts Auditor:

- By ensuring that the company and External Accounts Auditor adhere to the current laws regarding auditor independence.
- Ensuring that the fees of the External Accounts Auditor do not threaten their quality and independence, and are not based on any form of contingency.
- Establishing the appropriate relations with the External Accounts Auditor in order to receive information on matters that could jeopardise their independence and on potential safeguard measures.
- Authorising services other than those that are prohibited, in accordance with applicable legislation.
- In the event of resignation of the Accounts Auditor, the Committee should investigate the issues giving rise to the resignation.
- It shall receive an annual statement from the External Auditor on their independence with respect to the Enagás Group (included in the delivery of the supplementary report) or entities directly or indirectly related to it, in addition to detailed and individual information on additional services of any kind rendered to these entities by the External Auditor or by persons or entities related to them, in conformity with audit regulations.
- Prior to the issuance of the audit report, the Audit and Compliance Committee shall issue a report in which an opinion is expressed on whether the independence of the auditors is compromised. This report shall in all cases include a reasoned assessment of each additional service rendered contained in it that could compromise the independence of the Accounts Auditor, and it shall be published on the Corporate website sufficiently in advance of the date of the Ordinary General Shareholders' Meeting.
- Establishing a maximum term of auditor engagement, ensuring a gradual rotation with the main audit partners.

In relation to the mechanisms set out to safeguard the independence of financial analysts, investment banks and rating agencies. Communication and Contact Policy with Shareholders, Institutional Investors and Proxy Advisers, approved by the Board in 2015, sets out the framework of action for the company's relationship with shareholders, analysts, investors and proxy advisers, with the application of the principles of good governance and corporate values, such as transparent reporting, continuity, accessibility and immediacy, the fostering of shareholder trust, protection of their rights and encouraging their participation, equal treatment and non-discrimination, and compliance with the laws in force, etc.

In line with Enagás' Corporate Governance System, the Board of Directors has put in place systems allowing for regular information exchange with shareholders on topics such as investment strategy, assessment of performance figures, the composition of the Board of Directors and management efficiency. Under no circumstances can this information create situations of privilege or attribute special advantages with regard to the other shareholders. In addition, within the scope of its activities the Finance Department provides investment banks with the information they need.

To this end, Enagás has an Investor Relations Area, to permanently deal with enquiries or suggestions from analysts and institutional investors, professionals or qualified persons, rating agencies, bondholders, as well as those from socially responsible investors (SRI), by providing a telephone number and email address for this purpose. Shareholders, investors and analysts can avail themselves of full and updated information via the following channels: the Investor Relations Department and the Shareholder Information Office.

As stipulated in article 5 of the Rules and Regulations of the Organisation and Functioning of the Board of Directors of Enagás, the Board shall adopt and execute all acts and measures required to ensure transparency of the company with regard to the financial markets, uphold the proper formation of prices for the company's and its subsidiaries' shares, and perform all functions attending the company's status as a listed company pursuant to current laws and regulations.

Likewise, article 7 section f) of the Enagás Rules and Regulations of the Organisation and Functioning of the Audit and Compliance Committee, this Committee is responsible for assessing compliance with the Internal Code of Conduct in Matters Relating to Securities Markets, the company's governance regulations in general, and making the proposals necessary for their improvement. In fulfilling this duty, the Audit and Compliance Committee liaises with the Appointments, Remuneration and CSR Committee in considering company Directors' and managers' compliance with the Code.

Directors shall further be furnished with the minutes of the previous meeting, whether or not such minutes have been adopted.

Article 13 of the Board Regulations states that Directors shall perform their positions with the loyalty of a reliable representative, acting in good faith and in the best interest of the company. In particular, the duty of loyalty requires that Directors:

[...]

- c) Refrain from participating in deliberating and voting on resolutions or decisions in which they or a related person have a direct or indirect conflict of interests. Resolutions or decisions that affect them in their capacity as Director, such as their appointment to or removal from posts on the governing body or others of a similar nature, will be excluded from the preceding obligation.
- d) Perform their functions according to the principle of personal responsibility with freedom of judgement or judgement and independence relating to instructions from and links with third parties.
- e) Adopt the measures required to avoid becoming involved in situations in which their interests, either for their own personal reasons or those of another party, may conflict with the company's interest or with their duties with the company.

In particular, the obligation to avoid conflicts of interest referred to in the preceding paragraph requires that Directors refrain from:

- e) Conducting transactions with the company, except for routine transactions carried out under standard conditions for the customers and having little import, which are understood to be those that are not required to be reported in order to express a true and fair view of the equity, the financial position and results of the entity.
- b) Using the name of the company or invoking their position as director to improperly influence the conducting of private transactions.
- c) Using the corporate assets, including the company's confidential information, for private purposes.

- f) Conducting activities for themselves or for another party which, actually or potentially, entail effective competition with the company or which, in any other manner, place them in permanent conflict with the company's interests.

The above provisions will also be applicable if the beneficiary of prohibited acts or activities is a person related to the Director.

In any event, Directors must inform the other Directors and the Board of Directors of any direct or indirect situation of conflict that they or persons related to them make have with the company's interests.

Direct and indirect conflicts of interest in Directors become involved shall be disclosed in the Annual Report.

In addition, concerning transactions carried out with related parties, the company must adopt the following measures:

- a) Report them twice a year to the CNMV and include them in the Annual Report in the Corporate Governance section.

All those described as being subject to this Internal Code of Conduct must:

- Notify the Secretary to the Board of Directors of any possible conflicts of interest to which they may be subject due to family relationships, their personal assets and liabilities or any other reason. Communications must be made within fifteen (15) days and, in any case, before the decision that may be affected by the potential conflict of interest is taken.
- Keep the information updated, taking into account any modification or cessation of previously reported situations as well as the emergence of new conflicts of interest.
- Refrain from participating in any decision-making process that may be affected by such a conflict of interest with the company.

E. Risk control and management systems

E.1 Describe the risk management system in place at the company, including fiscal risks.

The Enagás Group has established a risk management and control model aimed at ensuring the continuity of the business and the achievement of the objectives of the company in a predictable manner and with a medium-low profile for all of its risks. The model is based on the following aspects:

- The establishment of a risk appetite framework that is consistent with the stated business targets and the market context within which the company carries out its activities (see details in section E.4);
- The consideration of standard risk typologies to which the company is exposed (see details in section E.3);
- The existence of governance bodies with responsibilities for overseeing the company's level of risk (see section E.2);
- The segregation and independence of the functions of risk control and management at the company, on three lines of "defence";
- The transparency of information supplied to third parties, to guarantee its reliability and accuracy.

The risk control and management function is articulated around three lines of defence, with differentiated roles and responsibilities, as follows:

- 1st line of defence: made up from the organisational units which assume the risks in the ordinary course of their activities. They own and are responsible for identifying the risks.
- 2nd line of defence: the Risk Department, in charge mainly of ensuring that the risk control and management system works correctly, defining the regulatory framework and approach, and performing periodic monitoring and overall control of the company's risks.
- 3rd line of defence: the Internal Audit Department, in charge of supervising the efficiency of the risk controls in place.

The integral analysis of all risk permits the appropriate control and management thereof, an understanding of the relationships between them and facilitates their joint assessment. This is accomplished by taking into account the differences of each type of risk in terms of its nature, handling capacity, risk measurement tools, etc.

Enagás has established a regulatory framework for risk through the "Risk Control and Management Policy" and the "General Regulations for Risk Control and Management" setting out the basic principles governing the risk function and identifying the roles of the various decision-making bodies and the constituent parts of the risk management system.

According to the nature of the events and the triggers, monitored risks are classified as: strategic and business risks, operational and technological risks, credit and counterparty risks, financial and fiscal risks, criminal liability risks, reputational risks and compliance and model risks.

E.2 Identify the bodies responsible for preparing and implementing the risk management system, including fiscal risks.

The main bodies responsible for the Risk Management System and their main functions are:

Board of Directors

The Enagás Group Board of Directors is responsible for approving the risk control and management policy. Other responsibilities with respect to risks are delegated in the Audit and Compliance Committee.

Audit and Compliance Committee

The mission of the Audit and Compliance Committee is to assist the Board of Directors in all matters related to the company's risks. Its functions related to risk control and management are:

- To oversee the effectiveness of risk control and management systems in order to mitigate risks adequately, in the framework of the company's internal policy. To submit recommendations or proposals to the Board of Directors to improve these systems along with the corresponding deadline with dealing with them.
- To assess the company's risks and examine the analyses of risks, the types of which are set out in the internal risk policies, that affect the business. This periodic information is prepared in accordance with internal rules, including the identification, measurement and establishment of management measures for the key risks affecting the company.
- To disclose to the Board of Directors any risks uncovered, with an assessment thereof, and any key issues concerning risks.

Risk Committee

The Enagás Group's Risk Committee is an executive governance body that assists the Management Committee on all matters related to the company's risks. It coordinates the set of strategic and operational activities to maximise the profitability of the business with certain degrees of uncertainty. Part of the duties of this committee are:

- To oversee compliance with risk regulations, proposing the actions it considers necessary in the event of any breach.
- To establish the risk principles and overall strategy, promoting the integration of the risk management function at all levels and areas of Enagás' business through a common risk culture aligned with the company's objectives.
- To approve risk-measurement approaches, ensuring consistent metrics in order to consolidate the overall risk level.
- To approve the company's overall risk limits and/or thresholds, and, where appropriate, those of the business units and/or corporate departments.
- To supervise that risk remains within levels that the company is willing to accept and that are aligned with its strategy and objectives.
- To regularly review the level of exposure to risk: i) analyse overall risk exposure and exposure of the various businesses and departments, and verify, by risk typology, that the level of risk exposure is below the level of acceptable risk; ii) review the corrective actions proposed by the business units and/or corporate departments to address potential breaches of the established limits.
- To report to and advise the Management Committee on matters related to the company's risks.

Risk Department

The corporate Risk Department is in charge of the overall management of all regulations related to risk, supervising that risk management is applied correctly, disclosed, monitored and improved continuously so that it is aligned with the business needs at all times.

Part of their duties are:

- To ensure that the risk control and management systems are functioning correctly. To define the framework of rules and methodologies for the identification, measurement and management of the main risks affecting the company.

- Participate actively in the preparation of risk strategies and in key decisions about their management. To analyse, from a risk perspective, the main risks and participate in the decisions that affect them.
- To supervise that the risk control and management actions proposed by the business units are mitigating risks effectively in the frame of the policy and strategy drawn up.
- To propose to the Risk Committee the company's risk appetite and tolerance, and the structure of the related limits.
- To monitor and control all the company's risks, validating the measurements made by the business units and/or departments.
- To advise the company's departments in risk assessment.
- To propose a global and consistent view of the company's risk through an internal information and control system.
- To disclose the Group's risks and report on the key matters relating to risk to the senior management and Governing Bodies.

Business and corporate units

These are the various business and corporate units that assume risk in the ordinary course of their activities. Part of their duties are:

- To identify risks in their activity on a regular and systematic basis through the year.
- To assess and measure risks following the established identification and assessment approaches.
- To define risk-management and risk-mitigation and impact control actions in accordance with the defined strategy and the nature of the risks.
- To pass down risk limits and thresholds to lower levels.

E.3 Indicate the main risks, including fiscal, which may prevent the company from achieving its targets.

The main risks affecting the Enagás Group in the development of its business can be classified as follows:

Strategic and Business Risks:

These are risks which are inherent to the gas sector and are linked to potential losses of value or results derived from external factors, strategic uncertainties, economic cycles, changes to the environment, changes to patterns of demand, competition and market structure or changes to the regulatory framework, as well as those derived from taking the incorrect decisions in relation to business plans and company strategies.

The Enagás Group's activities are mainly exposed to the following risks:

- Changes in the regulatory framework.
- Evolution of demand, with short, medium and long-term effects, associated with weather conditions, the competitiveness of natural gas with other energy sources, evolution of the economy, etc.
- Permits and administrative approvals.
- Delays and cost over-runs in the execution of infrastructure projects.
- Etc.

Operational and Technological Risks:

Operation of the Enagás Group's infrastructures may give rise to losses of value or earnings resulting from inadequate or failed internal processes, human error or other external factors.

The main operational and technological risks to which the Enagás Group is exposed are:

- Industrial risks (conditioned by the nature of the fluid being handled), those related to incidents during the operation of transmission infrastructures, regasification plants and underground storage facilities, which may involve large-scale damage.
- Internal and/or external fraud.
- Cybersecurity (economic fraud, espionage, activism and terrorism).

Financial and Fiscal Risks:

The Enagás Group is subject to the risks deriving from the volatility of interest and exchange rates, as well as movements in other financial variables that could negatively affect the company's liquidity.

Interest rate fluctuations affect the fair value of assets and liabilities that accrue interest at fixed rates, and the future cash flows from assets and liabilities that accrue interest at floating rates.

Exchange rate fluctuations may affect positions held with regard to debt denominated in foreign currency, certain payments for services and the purchase of capital goods in foreign currency, income and expenses relating to companies whose functional currency is not the euro and the effect of converting the financial statements of those companies whose currency is not the euro during the consolidation process. This risk affects the Enagás Group, both owing to its international operations, fundamentally in Latin America, and intragroup loans in currencies other than the euro, mainly the US dollar.

The Enagás Group maintains a liquidity policy that is consistent in terms of contracting credit facilities that are unconditionally available and temporary financial investments in an amount sufficient to cover the projected needs over a given period of time.

As regards the execution of large projects, Enagás Group is exposed to uncertainties owing to the effective procurement of finance in conditions similar to those forecast in its business plans. On certain occasions this financial risk may be associated with other risks arising from the agreement terms that set out the conditions of service (which may even lead to the cancellation of the concession agreement).

It is also exposed to potential changes in legal frameworks for taxation and uncertainty arising from the possible different interpretations of prevailing tax laws, which could have a negative impact on results.

Credit and Counterparty Risks:

Credit risk consists of the possible losses arising from a failure to pay the financial or quantifiable obligations owed by a counterparty to which the Enagás Group has extended net credit and is pending settlement or collection. The counterparty risk includes the potential breach of obligations acquired by a counterparty in commercial agreements that are generally established in the long-term.

Reputational Risks:

Reputational risk refers to any action, event or circumstance that could have a harmful effect on the company's reputation among its stakeholders.

Criminal Liability Risks:

The amendments made to the Criminal Code in 2010 and 2015 establish criminal liability on the part of legal entities. In this regard, Enagás could be held liable in Spain for certain crimes committed by its directors, officers and staff in the interest of the company. To prevent this risk from materialising, Enagás has approved a Crime Prevention Model and has implemented the measures needed to prevent corporate crime and the avoid liability for the company.

Likewise, as a result of the company's international activity, the Model has been broadened to cover the requirements of Mexican criminal law and US anti-corruption measures.

Compliance and Model Risks:

The Enagás Group is exposed to compliance risks, which comprises the costs associated with possible sanctions owing to infringement of laws or sanctions derived from the materialisation of operational events, conducting of improper business practices, non-compliance with internal policies and procedures and/or the incorrect use of models.

E.4 Identify if the company has a risk tolerance level, including fiscal.

The Enagás Group Risk Management and Control Model defines the risk appetite framework, which corresponds to the maximum level of risk the company is willing to take on in order to meet its objectives, and which is expressed by means of risk limits. The level of risk tolerance is the result of the deviation in the level of risk the company takes on at a specific moment in relation to the defined risk appetite.

The Enagás Group has defined a set of limits for the main types of risk that the company may present (strategic risks and business, operational, technological, financial and tax-related, credit and counterparty, and criminal liability risks), with the establishment of the maximum acceptable level of risk, which is updated yearly by the Risk Committee. These limits are specified by a set of indicators that are regularly monitored throughout the year.

E.5 Identify any risks, including fiscal, which have occurred during the year.

The company had a medium-low risk profile over the course of 2016, similar to that of 2015, partly due to the existence of corporate risk control and management systems. This allowed certain risks to be eliminated from the company's inventory, without their having any negative impact.

Risks that materialised with a negative impact on the company in 2016 related to its heavy exposure to regulatory risk, as certain regulatory developments had a negative impact on the company. Similarly, certain operational and technological risks were recorded in respect of incidents with infrastructures and systems for minor sums caused by circumstances inherent in operations and business.

Likewise, the agreement for financial closure was not achieved as scheduled by GSP (the company holding the concession for the Southern Peru Gas Pipeline, in which Enagás has a stake), leading to the termination of the concession. Under the terms contained in the concession agreement and other agreements signed between the partners, the Enagás Group is expected to recover its investment in the project.

E.6 Explain the response and monitoring plans for the main risks the company is exposed to, including fiscal.

A series of control activities defined by each of the business units and corporate departments are associated with the main risks identified by the company to ensure that it can respond adequately and in a timely manner. The Audit and Compliance Committee and the Risk Committee oversee the implementation of these control activities and monitor the action plans.

The type of controls in place vary considerably depending on the nature of the risk. For instance:

- Regarding regulatory risks, controls and mitigating actions include, inter alia, ongoing cooperation with (domestic and European) regulators and public administrations.
- Regarding infrastructure operation (e.g. damage, incidents), risks are mitigated through the design of maintenance and continuous improvement plans, the definition and monitoring of quality indicators, and control systems and alerts, which ensure service continuity and quality, among others.
- Regarding business risks related to international asset management, controls include monthly monitoring of planning for international assets and returns on investments, etc.
- To prevent criminal liability risk from materialising, the Enagás Group has approved a Criminal Prevention Model (reviewed in 2016) and has implemented the measures needed to prevent corporate crime and the avoid liability for the company. The finance risks of international projects are handled through a steady and ongoing relationship with the different financial institutions and advisers, and through the continuous monitoring of market conditions.

F. Internal control over financial reporting (ICFR)

Describe the mechanisms which comprise the internal control over financial reporting (ICFR) risk control and management systems at the company.

F.1 The entity's control environment

Specify at least the following components with a description of their main characteristics:

Likewise, article 44 of the Consolidated Articles of Association states that the Audit and Compliance Committee is responsible for seeing to the proper operation of the company's, and its Group's, internal control, internal audit function, if applicable, and risk management systems. In addition to discussing any significant weaknesses in the internal control system detected in the course of audit with the auditors without impinging on its independence. To carry out its duty of oversight of the effectiveness of internal control, the Audit and Compliance Committee has the support of an Internal Audit Unit, as established in the General Internal Audit Regulations.

Finance Department

The Finance Department is responsible for designing, implementing and ensuring there is a suitable and efficient ICFR system. The Internal Control over Financial Reporting Unit assists it in these duties, it is key to managing ICFR and has the following tasks:

- Managing the self-assessment of the ICFR system and monitoring the results.
- Coordinating the ICFR risk assessment and periodically updating the risk map.
- Carrying out an annual evaluation of the requirements to update the document attributing the accounts to ICFR areas, in order to maintain the required standard of financial information.
- Drawing up and updating the Enagás Group Internal Control over Financial Reporting System Manual (ICFR system Manual).
- Updating and disseminating applicable ICFR system regulations, both internal and external.
- Identifying the training needs and organisational/execution needs for courses relating to ICFR or other related issues (these are channelled via the Training School programme included in the Training Plan and Training Programme).
- Monitoring and updating the model for defining scopes.
- Collaborating with the Internal Audit Department, ensuring independence at all times.
- Collaborating in classifying any deficiencies detected during reviews of the ICFR system (material weaknesses, significant deficiencies, insignificant deficiencies).
- Collaborating in implementing corrective measures detected in the reviews of the ICFR.

Internal Audit Department

The Internal Audit Department reports to the Audit and Compliance Committee as per the Internal Audit General Regulations. It is responsible for “assessing and improving the efficiency of risk management processes, internal control and corporate governance”.

Its main ICFR duties, which are coordinated by, overseen and supervised by the Audit and Compliance Committee, include:

- Performing tests and assessments of the design, implementation and operational effectiveness of the ICFR system.
- Conducting a series of limited checks on the documentation of cycles and sub-cycles to achieve a preliminary understanding of whether the documentation prepared by Enagás is up to date and to detect which potential control activities should be designed.
- Conducting a series of limited checks to gain a preliminary understanding of the degree of compliance and formalisation of the (manual and automated) controls established by Enagás.
- Verifying the correct implementation of corrective action concerning the ICFR system in accordance with the Internal Annual Audit Plan.

Departments and Business Units involved in preparing financial information

The people in charge of the sub-cycles/processes involved in the preparation of financial information and whose main duties are:

- Supervising the actions and evaluations carried out for each of the processes for the cycles in the Areas, with the possibility of eventually carrying out tests to confirm the results of specific controls.
- Establishing, monitoring and evaluating the effectiveness of the control activities within the cycles/sub-cycles, mainly concerning communication, allocating responsibilities, delegating competences, segregating duties and managing access to information and other critical resources, developing and modifying the processes (both operational and control) and support systems.
- Coordinating the design, documentation and implementation of ICFR system processes, ensuring objectives to manage all processes in question are met.
- Ensuring that all documentation concerning the process is kept up to date (who, what, how, rules, proof, etc.) as well as that concerning the ICFR system control and risk objectives.
- In the case of amendments or updates to regulations, procedures, instructions etc., the owner of the process shall notify the ICFR Unit.
- Reporting, formally and periodically on the outcome of the self-assessments carried out.
- Collaborating in identifying qualitative factors which may affect the inclusion of this process in the general ICFR model.
- Implementing and promoting the implementation of corrective action in the area of ICFR.

The allocation of ICFR responsibilities is reflected in the positions within the Group's organisational structure, and included in the job analysis and description sheets containing the description of the assigned tasks. Any changes in the allocation of responsibilities are made to the organisational structure and these sheets, as set forth in the company's "Organisational Development and Processes" procedure.

F.1.2. The existence or otherwise of the following components, especially in connection with the financial reporting process:

Departments and/or mechanisms in charge of: (i) the design and review of the organisational structure; (ii) defining clear lines of responsibility and authority, with an appropriate distribution of tasks and functions; and (iii) deploying procedures so this structure is communicated effectively throughout the company.

The design and review of the organisational structure as well as defining clear lines of responsibility falls to the Appointments, Remuneration and Corporate Responsibility Committee as stipulated in article 25 of the Regulations of the Board of Directors of Enagás, S.A.. The Appointments, Remuneration and CSR Committee under article 45 of the Articles of Association, has the following duties and powers [...]: To formulate proposals to the Board of Directors regarding the company's organisational structure, including the creation of Senior Management posts in order to achieve improved and more efficient company administration [...].

Likewise, the Corporate Resources Department is responsible for designing, implementing and updating the organisational structure. The internal mechanisms used by this department, to clearly define the lines of responsibility, are enumerated in:

- "Job Analysis and Description Sheets"
- The "Human Resources Development Procedure"
- The "Organisational Development and Processes Procedure"

which, among other issues, establish and develop, in accordance with the company's strategy and business and operating needs, the organisational structure of the departments/units, the overall management model for processes and job descriptions.

The particular features of the ICFR lines of responsibility and authority are regulated by the "Enagás ICFR Manual" as well as various rules and regulations concerning the key governing bodies and Senior Management. Meanwhile, specific ICFR-related responsibilities are considered in the design of the model, aligned with those defined in the Job Analysis and Description Sheets. Versions of the ICFR model are generated periodically to reflect the changes over time in job responsibility.

Also worth noting is the Powers of Attorney and Electronic Signature Certificates Management procedure, which sets out the actions to ensure that responsibilities are given appropriately. The organisational structure is available to all employees on the Intranet in the form of an organisational chart and is regularly updated. In addition, the specific rules and procedures detailing the related responsibilities are published on the Intranet, as stipulated in the General Regulations for Rules and Process Management.

Code of conduct, approving body, dissemination and instruction, principles and values covered (stating whether it makes specific reference to record keeping and financial reporting), body in charge of investigating breaches and proposing corrective or disciplinary action.

The following documents are available to all employees as part of the Group's Policy on Sustainability and Good Governance and other corporate policies:

Internal Code of Conduct in Matters Relating to Securities Markets

As stipulated in article 5 of the Rules and Regulations of the Organisation and Functioning of the Board of Directors of Enagás, S.A., the company has an Internal Code of Conduct in matters relating to Securities Markets which was drawn up and approved by the board. These regulations establish the rules for acting in securities markets and mandatory registries, in particular concerning the following:

- Conduct in situations of Privileged or Classified Information, and the handling of such information;
- The trading of Affected Securities of Enagás or companies in its business group;
- Detecting and dealing with conflicts of interest;
- Company relations with related parties;
- The treasury share policy of Enagás and its subsidiaries;
- Generally, compliance with securities market and market abuse regulations.

These regulations are applicable to the members of the Board of Directors of Enagás, to the members of the Board of Directors, where appropriate, of the Management Committee for Subsidiaries and affiliates to Senior Management, as well as managers and other staff involved in securities market operations or with access to privileged or classified company information, including External Advisers, as stipulated in articles 2, 3 and 4. In this regard, upon receiving a copy of the regulations covered, persons must sign a statement acknowledging receipt and declaring that they are aware of their obligations. These regulations are also available on the Corporate website and via Intranet.

The Audit and Compliance Committee is responsible for ensuring compliance with the regulations and the company's general governance rules, and makes suggestions, as necessary, to improve these (Article 7 of the Rules and Regulations of the Audit and Compliance Committee of Enagás, S.A. And Subsidiaries). The person in charge of Regulatory Compliance, in coordination with the General Secretariat, will ensure precise and true compliance with the obligations contained therein, with the requirement to regularly report to the Audit and Compliance Committee on the degree of compliance and any incidents detected in relation to its application for evaluation by the Committee, as stipulated by Article 20.1 of the regulations.

Enagás Group Code of Ethics

The “Enagás Group Code of Ethics, approved by the Board of Directors at its meeting of 15 December 2014, is designed to formalise “[...] the ethics and compliance model of the company, providing a description of the conduct expected of its employees, managers and directors (“persons”) irrespective of their responsibilities and their geographic or functional location [...]”.

Moreover, the company “[...] undertakes to inform and train appropriately both the persons at Enagás and third parties so that they are aware of and comply with this Code of Ethics, as well as the regulations, commitments and procedures that implement it. All these receive this Code and expressly confirm their commitment to knowing, complying with and enforcing it [...]”. The Code is available on the external website and the Intranet.

The conduct guidelines contained in the document, which are listed below, address issues related to financial reporting:

- Be trustworthy and transparent: “[...] The persons at Enagás ensure the reliability and rigour (they provide accurate, complete, understandable and timely information) of the financial and non-financial information both for internal use and provided to the market, and the accounting policies, control systems and supervisory mechanisms defined are applied so that the relevant information is identified, prepared and communicated in due time and form [...]”
- Expressly reject fraud, corruption and bribery: “In their relationships with third parties, including public authorities, the persons at Enagás can neither offer nor accept gifts or preferential treatment that is of more than a purely symbolic nature or that could be interpreted as an attempt to gain undue influence [...]”

In this regard, in 2013 the Procedures for Managing the Offering and Acceptance of Gifts was approved and in 2015 the Anti-Fraud, Corruption and Bribery Policy was approved.

The Code states that the Audit and Compliance Committee “[...] is responsible for supervising due execution of the ethics and compliance model, which includes measures for supervision and monitoring to prevent irregularities and offences. Enagás has an Ethical Compliance Committee which reports directly to the Audit and Compliance Committee and which will be responsible for supervising the operation of the ethics and compliance model [...]”

Code of Conduct of the Technical Manager of the Spanish Gas System

A Code of Conduct of the Technical Manager of the Spanish Gas System has been drawn up to “[...] guarantee that the functions of the Technical Manager of the Spanish Gas System are carried out independently from the rest of the activities of the Enagás Group, in compliance with the legally established criteria in the Hydrocarbons Sector Law, Law 34/1998 of 7 October [...]”. It was approved by the Board of Directors on 15 December 2014.

As set out in the Code: “It is the obligation of Enagás GTS to keep the list of the individuals subject to this Code of Conduct updated at all times and to send each of these a copy of the Code, requiring them to furnish a letter in which they confirm they have received the Code and declare that they know and accept compliance with the obligations they are subject to”.

It also provides that: “[...] The Ethical Compliance Committee is entrusted with ensuring compliance with this Code of Conduct and the effectiveness hereof. It will therefore periodically report to the Audit and Compliance Committee of the Board of Directors of Enagás, S.A. on the results of its assessment and on any deficiencies detected. However, the Managing Director of the Technical Manager of the System will address any queries that may be raised by the employees of Enagás GTS regarding the Code of Conduct [...]”.

The Ethical Compliance Committee, pursuant to Article 63.4 d) of the Hydrocarbons Sector Law, shall prepare a report containing the following information:

- The measures adopted to guarantee the segregation of activities.
- The conflicts of interest reported and the measures adopted to resolve them [...].”

This report will be submitted to the Ministry of Industry, Energy and Tourism and to the National Markets and Competition Commission. Moreover, both this report and the Code of Conduct of the Technical Manager of the Spanish Gas System are available on the external website.

Internal Audit Code of Ethics

A Code of Ethics for Internal Audit was approved in 2013 laying down the ethical culture in the function as an independent activity. It includes:

1. Principles relevant for the profession and practice of the internal audit:

- Integrity
- Objectivity
- Confidentiality
- Competence

2. The Rules of Conduct which describe the behaviour expected from all internal auditors. These rules serve to assist with the interpretation of the Principles in their practical application. Their aim is to guide the ethical conduct of internal auditors.

Once a year all internal auditors must sign a declaration stating that they are cognisant of, understand and uphold these rules. This Code of Ethics is available on the Intranet.

Whistleblowing channel, for reporting any irregularities of a financial or accounting nature to the Audit Committee, as well as breaches of the code of conduct and malpractice within the organisation, stating whether reports made through this channel are confidential.

The company has a whistleblowing channel, the Ethics Channel, for consultation and reporting of irregularities or breaches of the Enagás Group Code of Ethics and the Code of Conduct of the Technical Manager of the Spanish Gas System

The Ethical Compliance Committee is responsible for processing consultations and notifications. This Committee shall respond to all reports and periodically prepare a report to be submitted to the Audit and Compliance Committee. However, according to the “Procedure for the management of consultations and reporting regarding irregularities or breaches of the Code of Ethics”), if the consultation or notification is of a financial or accounting nature or concerns internal control or fraud, it shall be forwarded directly to the Audit and Compliance Committee.

Training and refresher courses for personnel involved in preparing and reviewing financial information or evaluating ICFR, which address, at least, accounting rules, auditing, internal control and risk management.

The Human Resources Development Division, which reports to the Corporate Resources Department, has a “Training School” which manages and plans all the training programmes and other instruction initiatives for all employees included in the Training Plan and Training Programme.

The Resources Department, in coordination with the Finance Department and the Internal Audit Department, identifies and analyses the specific training needs of all personnel involved in preparing and reviewing financial reporting, including issues concerning accounting, internal control and risk management.

In 2016, the Finance Department and the Internal Audit Department took part in various training programmes, including: Internal Audit and Risk Management, Data Migration Audit, Cybersecurity and Internal Audit, Internal Control over Financial Information, Definition of Risk Assessment Mapping, Prevention and Investigation of Fraud, among others.

F.2 Risk assessment in financial reporting

Report at least:

F.2.1. The main characteristics of the risk identification process, including risks of error or fraud, stating whether:

The process exists and is documented

Identifying risk is one of the core fundamentals in risk analysis with regards to the preparation of financial information. Until 2014, the process followed the COSO (1992) (Committee of Sponsoring Organisations of the Treadway Commission) framework. One of the objects was to help ensure that transactions were recorded faithfully in accordance with the related accounting framework so it could provide reasonable assurance regarding the prevention or detection of errors that could have a material impact on the information contained in the consolidated financial statements. In 2015, the model was adapted to the new COSO 2013 framework set out in its Internal Control-Integrated Framework report.

The “Enagás Risk Control and Management Policy” provides a reference in the area of risk identification, as it states the company’s policies on how to deal effectively with uncertainty, risks and the associated opportunities, thereby improving its capacity to generate value in order to achieve the aims of the Organisation, which include reliable financial reporting.

The principles and criteria included in the policy were issued by the Enagás Risk Committee. This Committee is charged with defining, approving and updating the basic criteria and principles guiding actions in relation to risk, as set out in “Functioning of the Enagás Risk Committee” procedure.

The principles set out in the “Enagás Risk Control and Management Policy” are articulated in the “General Regulations for Risk Control and Management”, providing an organisational and methodological framework that ensures the risk control and management process is implemented appropriately and effectively.

Specific risks related to the company’s Internal Control over Financial Reporting System are classified in this framework under the Group’s operational risk category. The identification and measurement of these risks are performed as set out in the Internal Control over Financial Reporting System Manual.

The process covers all financial reporting objectives, (existence and occurrence; completeness; valuation; presentation, disclosure and comparability; and rights and obligations), is updated and with what frequency.

Pursuant to the "ICFR System Manual", the risk identification process covers all financial reporting objectives to ensure the accuracy and completeness of the same. The manual describes the risks related to the financial reporting process as follows:

- Completeness: the risk that all transactions, and other circumstances and events are recorded.
- Rights and obligations: the risk that all financial information at any given date does not reflect the rights and obligations through the corresponding assets and liabilities in accordance with applicable standards.
- Existence and occurrence: the risk that not all transactions, circumstances and events exist and are not all recorded at the appropriate time.
- Valuation: the risk that not all transactions, circumstances and events are recorded and valued in conformity with applicable standards.
- Presentation, disclosure and comparability: the risk that not all transactions, circumstances and events are classified, presented and disclosed in the financial information in accordance with applicable standards.
- Internal fraud: includes the risk of manipulation of files, software and information, and the risk of unauthorised activities (involving employees) leading to intentional financial statement misstatements; and misappropriation of funds and assets due to inappropriate use of corporate assets.

Periodically, the ICFR Unit fully evaluates all control processes and corresponding specific risks mitigation measures in place, and at the same time, assesses whether new risks need to be added.

A specific process is in place to define the scope of consolidation, with reference to the possible existence of complex corporate structures, special purpose vehicles, holding companies.

The Finance Department operates a management and updating process to identify those companies which should be included in the scope of consolidation. This process is detailed in the Period-End Procedures for Consolidated Financial Statements and Annual Accounts.

In compliance with article 7 of the Rules and Regulations of the Organisation and Functioning of the Audit and Compliance Committee, the Committee's duties and competencies include "Overseeing the preparation and presentation of financial information on the company and the Group, checking compliance with regulatory requirements, the due definition of the scope of consolidation and the correct application of accounting principles".

In determining the companies covered by the ICFR scope, the Group considers those in which it has a direct 100% shareholding. For all other consolidated companies, the Group includes controls to ensure consistency, validity and reliability of the financial information provided for inclusion in the consolidated financial statements.

The process addresses other types of risk (operational, technological, financial, legal, reputational, environmental, etc.) insofar as they may affect the financial statements.

The process of identifying risks associated with achieving the financial reporting objectives takes into account the possible effects derived from the materialisation of other types of risks contained in the risk control and management model described in section e) of this document. These effects would arise, as the case may be, through strategic and business risks, operational and technological risks, credit and counterparty risks, financial and fiscal risks, criminal liability risks, reputational risks and compliance and model risks.

Finally, which of the company's governing bodies is responsible for overseeing the process.

The Audit and Compliance Committee is responsible for overseeing the preparation and presentation of financial information on the company, and to present recommendations or proposals to the Board of Directors to safeguard the integrity of such financial information. It also sees to the proper operation of the company's, and its Group's, internal control, internal audit function, if applicable, and risk management systems, including risks related to the treatment of financial information, according to article 44 of the Consolidated Articles of Association and article 7 of the Regulations of the Audit and Compliance Committee.

F.3 Control activities

Indicate the existence of at least the following components, and specify their main characteristics

F.3.1. Procedures for reviewing and authorising the financial information and description of ICFR to be disclosed to the markets, stating who is responsible in each case and documentation and flow charts of activities and controls (including those addressing the risk of fraud) for each type of transaction that may materially affect the financial statements, including procedures for the closing of accounts and for the separate review of critical judgements, estimates, evaluations and projections.

Procedures for reviewing and authorising financial information to be disclosed to the markets

The Organisation has the following documents to ensure the reliability of the financial information to be disclosed to the securities markets:

- "The "Manual of Accounting Policies (PGC)" and the "Manual of Accounting Policies (IFRS)", which establish and provide clear information on the accounting policies required for performing accounting estimates and preparing the company's Separate and Consolidated Financial Statements and accompanying notes, to ensure that these provide a true and fair view of its equity, financial position, results of operations, changes in net equity and changes in cash flows.
- "Period-end procedures for the Separate Financial Statements and Annual Accounts" and "Period-end procedures for the Consolidated Financial Statements and Annual Accounts" approved by the Chief Financial Officer establishing the process of preparing, processing, reviewing and authorising the financial information at the closing of accounts by the persons in charge. These also establish the controls of judgements, estimates and evaluations which may materially affect the financial statements.
- "Procedure on the provision of Regular Reports to Securities Market Regulators" which establishes the process to be followed when preparing periodic financial information to be disclosed to the regulated markets regarding interim financial reports, interim management reports and, if applicable, quarterly financial reports.

This also establishes the people in charge of approving this financial information. With regard to the preparation and subsequent disclosure of financial reporting, the Investor Relations Department, the Finance Department, the General Secretariat, the Board of Directors and the Chairman of the Board all play a key role at the various levels within the Organisation in the validation and approval of all financial information.

Description of ICFR: Control and Activities

The Group's ICFR control structure is based on the five components of the COSO Model (The Committee of Sponsoring Organisations of the Treadway Commission) included in the Internal Control-Integrated Framework report (2013):

1. The control environment
2. Risk assessment
3. Control activities
4. Information and communication
5. Monitoring

Likewise, the recommendations of the report on “Internal Control over Financial Reporting at Listed Companies” prepared by the CNMV’s Internal Control Working Group (ICWG) (2010) are taken into consideration.

In this regard, the ICFR model states a number of key control objectives which, if fully implemented, allow reliability and transparency in preparing financial reporting. Implementation of these objectives is intrinsically tied to the effectiveness of “Control activities” at each stage of their execution.

In this context, the control structure defined is based on two classes of control:

- General controls
- Process controls

General Controls

The General Controls form the basis of the ICFR model. These are interlinked controls that directly affect the Enagás organisational structure and procedures. These are known as the “control environment” in the CNMV and COSO recommendations.

At the end of 2016, there were 41 ICFR general controls in operation. Senior Management is responsible for overseeing these controls, which are split between the following divisions:

- Secretary to the Board of Directors
- General Secretariat
- Gas System Technical Management Department
- Finance Department
- Resources Department
- Investor Relations Department
- Risks Department
- Communication and Public Affairs Office

These controls are assessed once a year to incorporate any updates and to identify new control components.

Process controls

Process controls (control activities) are controls over an organisation’s operating processes that are more specific than general controls. These are part of each of the main cycles and sub-cycles comprising the ICFR procedures, guaranteeing the reliability and transparency of Enagás financial reporting. These are factors which mitigate the risks inherent in the financial reporting procedure mentioned above to ensure the established control objectives are met.

These control activities are used throughout all the ICFR model and the eight Areas which affect financial reporting:

- Acquisitions
- Fixed assets
- Inventories
- Income
- Payroll and personnel
- Financial management
- Support services
- Financial reporting

These areas in turn affect a further 29 cycles and 66 subcycles and are formally documented in a corporate IT tool.

These process controls can be classified with the following different characteristic attributes:

According to their nature:

- Preventative: Preventing errors or any irregularities which may affect the information, i.e. preventing the impact of financial risks.
- Detective: Identifying errors or irregularities which may affect the financial information, i.e. identifying errors when they arise.
- Corrective: Correcting errors or irregularities which may affect the financial information, i.e. rectifying errors when they arise.
- Directive (Policy): controls based on the corporate policies procedures/instructions; such controls normally require an authorised signature or formal approval.

According to level of automation:

- Manual: control mechanisms directly executed by people.
- Semi-automated: control mechanisms executed by people and validated by "IT support" or vice-versa.
- Automated: control mechanisms with "IT support".

The quarterly self-assessment process carried out by the ICFR unit allows the Organisation to confirm the validity of the description of these controls by the people responsible, identifying any updates (new process controls, elimination, automation, etc.).

At the end of 2016, there were 378 ICFR process controls, approximately 12% of which were automated.

Operating activities

In addition to the controls we have mentioned above, when designing the ICFR subcycles a series of operating activities are defined to establish a flow chart showing how these impact financial reporting. Likewise, these activities are included in a corporate IT tool which establishes the models for the ICFR subcycles.

At 31 December 2016, there were 849 operating activities, approximately 12% of which were automated.

F.3.2. Internal control policies and procedures for Information Technology (IT) systems (including secure access, control of changes, system operation, continuity and segregation of duties) giving support to key company processes regarding the preparation and publication of financial information.

IT systems play an important role and are configured to support the preparation, processing and extraction of the financial information to be disclosed. This is why they are included in the ICFR actions and configuration.

All actions concerning information systems are regulated in the Cybersecurity Policy which defines the principles to effectively manage information security in the IT systems, as well as the assets involved in the processes.

Based on the principles of this policy, Enagás has designed the General Rules for Management of IT Systems establishing the responsibilities and the relationship between the requesting units and the IT Systems Department.

We also have General Computer Controls (GCCs). These provide a control framework designed to offer a reasonable level of security in IT systems used for financial reports, guaranteeing, to the greatest degree possible, that the information is confidential, available and complete. At 31 December 2016, there were 46 General Computer Controls covering five control areas:

- Management and Planning
- Physical and logical security
- Application development and maintenance
- Infrastructure development and maintenance
- Fraud prevention and detection

Here we would note that within the Infrastructure Development and Maintenance area is the GCC relating to the Business Continuity and Disaster Recovery Plan.

The objectives established within the framework of General Computer Controls help achieve control objectives related to the processing of computer generated information, through the defining, development, implementation and reviewing of control activities such as user and authorisation management, administrator management, access control, incident management, change management, business continuity, information storage and recovery, operations monitoring, etc.

Integral to the objectives of control of IT systems is the need to establish an appropriate segregation of duties, which is a prerequisite for an ICFR system to function efficiently and effectively. It is therefore of vital importance that there is a clear distinction between who has to execute actions related to the treatment of financial information, and who has to review and/or approve them. For this reason, correctly allocating profiles, both in IT systems and in terms of positions and functions, is critical to the success of the process.

F.3.3. Internal control policies and procedures for overseeing the management of outsourced activities, and of the appraisal, calculation or valuation services commissioned from independent experts, when these may materially affect the financial statements.

Enagás is particularly vigilant about any activities carried out by third parties which may significantly impact the financial statements to ensure maximum control over key procedures that may be outsourced, and that the activities are carried out to a standard that the Group demands.

The internal rules regulating this can be found in Identification and Treatment Procedures for Service Organisations.

The Group also has the following regulations and internal procedures regulating the contracting process and ensuring quality control of third parties:

- The General Management Regulations pertaining to Supplier Selection and Contracting
- The Purchase Management Procedures
- The Supplier Accreditation Procedure
- The Procedure for Ensuring Supplier Reliability

When the Organisation engages the services of independent experts for appraisal, calculation or valuation services, we request that they certify they are reputable firms in their field and are independent. This helps ensure that the Group's management is able to supervise and take the ultimate decisions on the estimate processes which may impact accounting records.

F.4 Information and communication

Indicate the existence of at least the following components, and specify their main characteristics:

F.4.1. A specific function in charge of defining and maintaining accounting policies (accounting policies area or department) and settling doubts or disputes over their interpretation, which is in regular communication with the team in charge of operations, and a manual of accounting policies regularly updated and communicated to all the company's operating units.

The Accounting and Tax Department which reports to the Finance Department is responsible for keeping all accounting policies regularly updated and communicating these to all personnel involved in the financial reporting process.

It has therefore drawn up the Accounting Policy Manual (PGC) and the Accounting Policy Manual (IFRS), internal documents which outline all procedures and the accounting policies required for performing accounting estimates and preparing the company's Separate and Consolidated Financial Statements and accompanying notes, to ensure that these provide a true and fair view of its equity, financial position, results of operations, changes in net equity and changes in cash flows. Those employees involved in the process are informed of any updates to the policies via the Intranet.

F.4.2. Mechanisms in standard format for the capture and preparation of financial information, which are applied and used in all units within the Entity or Group, and support its main financial statements and accompanying notes as well as disclosures concerning ICFR.

The preparation, review and approval of all financial information in standard format is regulated by the Period-end procedures for the Individual Financial Statements and Annual Accounts and the "Period-end procedures for the Consolidated Financial Statements and Annual Accounts", as well as the Accounting Policy Manual (PGC) and the Accounting Policy Manual (IFRS), which serve as guides to carrying out these tasks.

Furthermore there is a specific mechanism for the process of preparing the financial statements and accompanying notes, where the Audit and Compliance Committee, as a Board Committee, takes on a special relevance, overseeing this process (e.g. monitoring the supervision work of the Internal Audit unit, being cognisant of the internal control systems as well monitoring the work performed by the external auditor) before the financial statements are certified by the Board of Directors. The functions of the Audit and Compliance Committee in this regard are detailed in article 7 of the Rules and Regulations of the Audit and Compliance Committee of Enagás, S.A. and Subsidiaries.

The Group has an IT tool to record and treat all financial information which satisfies the needs of both individual and consolidated reporting.

F.5 Monitoring

Indicate the existence of at least the following components, describing their main characteristics:

F.5.1. The ICFR monitoring activities undertaken by the Audit Committee and an internal audit function whose competencies include supporting the Audit Committee in its role of monitoring the internal control system, including ICFR. Describe the scope of the ICFR assessment conducted in the year and the procedure for the person in charge to communicate its findings. State also whether the company has an action plan specifying corrective measures for any flaws detected, and whether it has taken stock of their potential impact on its financial information.

In this context, one of Enagás' top priorities is to take a proactive, and thereby preventative role during a phase of constantly overseeing the model, to ensure that the model is updated and aligned with both the business and the best regulatory practices.

Constant analysis of and following up of ICFR, detecting possible flaws and making sure the corresponding improvements and adjustments are achieved by taking the following measures:

- A regular evaluation of the design and effectiveness of current anti-fraud programmes and controls. Its scope and frequency depends on the importance of the associated risk and the demonstrated effectiveness of the controls in place.
- The participation of the Internal Audit Department, through the supervision functions attributed by the ICFR model through the General Internal Audit Regulations, the Enagás Group ICFR Manual and the Rules and Regulations of the Audit and Compliance Committee of Enagás, S.A. and Subsidiaries.
- Effective supervision by the Audit and Compliance Committee, relative to overall control of the ICFR model, delegated by the Board of Directors, and instrumented by Internal Audit.
- Reporting on weaknesses found, taking corrective measures to solve them, establishing mechanisms to track them and assigning the necessary resources to achieve them, according to the instructions in the ICFR Manual.
- Finally, once finalised, and subsequent to the implementation of the proposed measures, a design and final validation process will be undertaken, which will eventually be incorporated into the ICFR model.

Key throughout this oversight process is the function of Internal Audit which, as set out in the General Internal Audit Regulations, is responsible for:

- Collaborating with the Audit and Compliance Committee in fulfilling its duties, particularly with regard to the supervision of the internal control system and the risk control and management process, to relations with the external auditor and to supervision of the financial information preparation process.
- Participating in the review of the Internal Control over Financial Reporting (ICFR) system established by the company for its subsequent certification.

In order to ensure that these objectives are met, there is an Annual Internal Audit Plan, which is overseen and approved by the Audit and Compliance Committee, and includes a review of the ICFR system.

The Group's management conducted an internal assessment of the ICFR system and concluded that the system in place for Enagás, S.A. and Subsidiaries at 31 December 2016 is effective and contains no significant deficiencies.

F.5.2. A discussion procedure whereby the auditor (pursuant to TAS), the internal audit function and other experts can report any significant internal control weaknesses encountered during their review of the financial statements or other assignments, to the company's Senior Management and its Audit Committee or Board of Directors. State also whether the entity has an action plan to correct or mitigate the weaknesses found.

Article 7 of the Regulations of the Audit and Compliance Committee of the Enagás, S.A. Board of Directors details the objectives and functions of the Committee, including ensuring that the auditor, the Internal Audit function and other experts can inform Senior Management and the Board of Directors, of any significant internal control weaknesses encountered during their review of the financial statements or other assignments. These reports are made after each review task has been completed. State also whether the entity has an action plan to correct or mitigate the weaknesses found.

The Committee is also in charge of supervising compliance with the Internal Code of Conduct in Matters Relating to Securities Markets. The reports on the activities of the Audit and Compliance Committee contain important information about communication procedures and the conclusions reached at the end of each year.

F.6. Other relevant information

There is no other relevant information regarding ICFR at the Group to add to that which we have provided above.

F.7. External auditor review

State whether:

F.7.1. The ICFR information supplied to the market has been reviewed by the external auditor, in which case the corresponding report should be attached. Otherwise, explain the reasons for the absence of this review.

The Group has voluntarily subjected its ICFR to review since 2008. All reviews have been carried out by the auditor of Enagás, S.A. and Subsidiaries.

The report for 2016 is attached.

G. Degree of implementation of corporate governance recommendations

This indicates the degree to which the recommendations of the Good Governance Code of publicly traded companies are implemented.

In the case where a recommendation is not implemented or only partially implemented, a detailed explanation of the reasons for this is to be included so that shareholders, investors and the market in general have sufficient information in order to evaluate the company's course of action. General explanations are not acceptable.

1. The Articles of Association of publicly traded companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.

Compliant **Explain**

Additional Provision 31 of Law 34/1998, of 7 October, on the Hydrocarbons Sector, in force since the enactment of Act 12/2011, of 27 May, governing civil liability for nuclear damage or damage caused by radioactive materials, specifies in section 2 that:

“No natural person or legal person may hold, directly or indirectly, an interest in the parent company (ENAGÁS, S.A.) representing more than 5% of share capital or exercise more than 3% of its voting rights. Under no circumstances may such shareholdings be syndicated. Any party operating within the gas sector, including natural persons or legal persons that directly or indirectly own equity holdings in the former of more than 5%, may not exercise voting rights over 1%. These restrictions shall not apply to direct or indirect shareholdings held by public-sector enterprises. Under no circumstances may share capital be syndicated.

Likewise, the combined total of direct or indirect holdings owned by parties that operate within the natural gas sector may not exceed 40%.

For the purposes of calculating the stake in that shareholding structure, in addition to the shares or other securities held or acquired by entities belonging to its same group, as defined by article 4 of Act 24/1988, dated 28 July, on the Securities Market, stakes shall be attributed to one and the same individual or body corporate when they are owned by:

- a) Those parties who act in their own name but on behalf of that individual or body corporate in a concerted fashion or forming a decision-making unit with them. Unless proven otherwise, the members of a governing body shall be presumed to act on account of or in concert with that governing body.
- b) Partners with those with which one of them exercises control over a dominant company in accordance with article 4 of Securities Market Act 24/1988, 28 July.

In any event, regard shall be had to the proprietary ownership of the shares and other securities and the voting rights attached to each.

Non-compliance with the limit on interests in the share capital referred to in this article shall be deemed a very serious breach in accordance with the terms set out in article 109 of this Law. Responsibility shall lie with the individuals or legal persons found to be the owners of the securities or whoever the excess interest in the share capital or in the voting rights can be attributed to, pursuant to the provisions of the preceding paragraphs. Whatever the case, the penalty system stipulated herein will apply.

Enagás, S.A. may not transfer the shares of the subsidiaries carrying out regulated activities to third parties.”

Meanwhile, section 3 of Additional Provision 31 of this law states that:

“The restrictions of shareholding percentages and non transfer of the shares referred to in this provision are not applicable to other subsidiaries that ENAGÁS, S.A. may constitute for business activities other than transmission regulated by article 66 of Act 34/ 1998, of 7 October, on the hydrocarbons sector, management of the transmission network and technical management of the national gas system”.

Meanwhile, article 6 bis of the company’s Articles of Association (“Limitations on holdings in share capital”) establishes that:

“No individual or legal person may hold a direct or indirect stake of more than 5% in the equity capital of the company, nor exercise voting rights in such company of over 3%. Under no circumstances may such shareholdings be syndicated. Those parties that operate within the gas sector, including those natural persons or legal persons that directly or indirectly possess equity holdings in the former of more than 5%, may not exercise voting rights in the company of over 1%. These restrictions shall not apply to direct or indirect shareholdings held by public-sector enterprises. Under no circumstances may share capital be syndicated.

Likewise, the combined total of direct or indirect holdings owned by parties that operate within the natural gas sector may not exceed 40%.

For the purposes of calculating the stake in that shareholding structure, the Hydrocarbons Industry Act shall apply.

Enagás may not transfer to third parties shares of the subsidiaries included in its Group that undertake transmission and technical systems management, which are regulated businesses under Hydrocarbons legislation.”

56. Directors' remuneration should be sufficient to attract individuals with the desired profile and compensate the commitment, abilities and responsibility that the post demands, but not so high as to compromise the independent judgement of non-executive directors.

Compliant Explain

57. Variable remuneration linked to the company and the Director's performance, the award of shares, options or any other right to acquire shares or to be remunerated on the basis of share price movements, and membership of long-term savings schemes such as pension plans should be confined to executive directors.

The company may consider the share-based remuneration of non-executive directors provided they retain such shares until the end of their mandate. The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

Compliant Partially compliant Explain

58. In the case of variable awards, remuneration policies should include limits and technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, or circumstances of that kind.

In particular, variable remuneration items should meet the following conditions:

- a) Be subject to predetermined and measurable performance criteria that factor the risk assumed to obtain a given outcome.

b) Promote the long-term sustainability of the company and include non-financial criteria that are relevant for the company's long-term value, such as compliance with its internal rules and procedures and its risk control and management policies.

c) Be focused on achieving a balance between the delivery of short, medium and long-term objectives, such that performance-related pay rewards ongoing achievement, maintained over sufficient time to appreciate its contribution to long-term value creation. This will ensure that performance measurement is not based solely on one-off, occasional or extraordinary events.

Compliant **Partially compliant** **Explain** **Not applicable**

59. A major part of variable remuneration components should be deferred for a long enough period to ensure that predetermined performance criteria have effectively been met.

Compliant **Partially compliant** **Explain** **Not applicable**

60. Remuneration linked to company earnings should bear in mind any qualifications stated in the external auditor's report that reduce their amount.

Compliant **Partially compliant** **Explain** **Not applicable**

61. A major part of executive Directors' variable remuneration should be linked to the award of shares or financial instruments whose value is linked to the share price.

Compliant **Partially compliant** **Explain** **Not applicable**

62. Following the award of shares, share options or other rights on shares derived from the remuneration system, Directors should not be allowed to transfer a number of shares equivalent to twice their annual fixed remuneration, or to exercise the share options or other rights on shares for at least three years after their award.

The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

Compliant **Partially compliant** **Explain** **Not applicable**

The General Shareholders' Meeting held on 18 March 2016 passed a three-year long-term incentive plan (2016-2018) with payment based on the fulfilment of the objectives and metrics established in the plan. For Executive Directors, this incentive may result, at most, in the delivery of shares representing 150% of their annual remuneration (50% per year). This is the first long-term incentive provided by the company in years and is for a limited amount. When other plans are adopted, the limit proposed in this recommendation (of not transferring shares equivalent to twice their annual fixed remuneration) will be considered.

63. Contractual arrangements should include provisions that permit the company to reclaim variable components of remuneration when payment was out of step with the Director's actual performance or based on data subsequently found to be misstated.

Compliant **Partially compliant** **Explain** **Not applicable**

64. Termination payments should not exceed a fixed amount equivalent to two years of the Director's total annual remuneration and should not be paid until the company confirms that said Director has met the predetermined performance criteria.

Compliant **Partially compliant** **Explain** **Not applicable**

Explanatory note on section C.1.19.-

Re-election:

Article 10 of the Regulations of the Board of Directors stipulates that Directors may hold office for a period of four years, and may be re-elected for similar periods. Directors appointed by co-option will perform their duties until the date of the first General Meeting, or until the date of the following meeting, if the vacancy arises after the General Meeting has been convened and before it is held.

Appraisal:

Article 11 of the Regulations of the Board stipulates that the Appointments, Remuneration and CSR Committee, responsible for evaluating the quality of work and dedication to their offices of the Directors proposed during the previous term of office, shall provide the information required to assess proposals for re-election of non-Independent Directors presented by the Board of Directors to the General Meeting and proposals for the re-election of Independent Directors.

Proposals for re-election shall always be accompanied by a report from the Board justifying the competencies, experience and merits of the candidate. This report shall be attached to the minutes of the General Meeting or of the Board.

As a general rule, appropriate rotation of Independent Directors should be ensured. For this reason, when an Independent Director is proposed for re-election, the circumstances making this Director's continuity in the post advisable must be justified.

Removal and dismissal:

Directors shall leave their post after the first General Shareholders' Meeting following the end of their term of appointment and in all other cases in accordance with the law, the Articles of Association and these Regulations (Article 12.1 of the Regulations of the Board).

The Board of Directors shall not propose the removal of any independent Director prior to the end of the period mandated by the Articles of Association for which they have been appointed, unless there are due grounds acknowledged by the Board following a report from the Appointments, Remuneration and Corporate Social Responsibility Committee. In particular, it shall be understood that there is just cause when the Director takes on new offices or assumes new obligations that prevent them from devoting the time necessary to perform the duties of the office of Director, breaches the duties inherent to their position or is affected by one of the circumstances that cause them to lose their independent status in accordance with the provisions of applicable law (art. 12.3 of the Regulations of the Board).

Explanatory note on section C.1.37.-

The new law provides a more restrictive treatment of services other than audit, which are considered to include any verification service other than the audit of annual accounts and the revision of interim financial statements as auditing. In this sense, the law stipulates a limit to services other than audit, which during three consecutive years may not exceed 70% of the average fees paid for audit services.

As stated in Note 2.3 of the Annual Accounts, the entry for services other than audit reported by Enagás on 31 December 2016 accounted for 53% of fees paid for audit services (47% for the group).

By homogeneously applying the criteria of the new law to FY 2015, services other than audit would have totalled 796 thousands of euros (compared to the 59 thousands of euros reported by the company and Group), which represented 57% of the total services rendered by the auditor in 2015 (1,336 thousands of euros for the company and 1,385 thousands of euros for the Group).

Explanatory note on section C.2.1.-

- To oversee the effectiveness of the company's system of internal control, internal auditing and risk management, including taxation risks, as well as discussing with the auditors any significant weaknesses in the internal control system identified during the course of the audit without impinging on its independence. The Committee issued its favourable report on the proposed amendments to the aforementioned corporate texts.

Committee activities

The Committee has met six (6) times in 2016. The Chairman of the Committee has reported to the Board the discussions held at each of the meetings of the Committee at the next meeting thereof.

The main areas in which the Audit and Compliance Committee has focused its activity during 2016 are summarized below.

Committee activities relating to the formulation and approval of the Enagás Financial Statements for 2015 Report on the independence of the external auditor. Report on the independence of the External Accounts Auditor.

As in previous years, the Audit Committee was entrusted with the task of discussing and analysing the financial statements prior to their authorization for issue by the Board of Directors. To this end the members of the Committee met with the company's External Auditors (Deloitte S.L.) on 15 February 2016, and also with Enagás' Chief Financial Officer and Director of Internal Audit.

Both the External Auditors and the financial officers of the company offered the Committee their views on the financial statements. Differences in accounting criteria in no case exceeded the materiality threshold above which Deloitte's opinion on the financial statements could be affected. Deloitte informed the Audit Committee that its report would be without reservations or qualifications.

The External Auditors delivered to the Committee a letter in which they state that "in connection with the audit of the consolidated financial statements of Enagás, S.A. and subsidiaries (Enagás Group) for the year ended 31 December 2015, we confirm that to our best knowledge, the team in charge of the audit and Deloitte, S.L., with the extensions that apply to them, have complied with the independence requirements applicable under the provisions of the revised text of the Audit Law, issued by Royal Legislative Decree 1/2011, of 1 July and its implementing regulations." The document then includes below the total amount of the fees paid to Deloitte for the year 2015, classified by type of service.

In turn, the Committee unanimously approved the "Audit and Compliance Committee's Report on the Independence of the External Accounts Auditor" made available to shareholders when publishing the notice of the General Shareholders' Meeting, held on 18 March 2016 and which approved the 2015 financial statements. This report concluded that:

"In view of the information that has been provided, the Audit and Compliance Committee of Enagás has not identified any issues that call into question compliance with the regulations in force in Spain for the audit activity as regards auditor independence and, in particular, the Committee confirms that it has not identified any matters of this nature relating to the provision of additional services to those of the audit, taken individually and as a whole, of any kind".

The following conclusions emerged from the Audit Committee's examination of the 2015 financial statements:

- That the financial statements of Enagás and its Consolidated Group, as submitted to the Committee, gave a true and fair view of the company's equity and results of operations for the year.
- That the financial statements contained sufficient information to be clearly understood, in addition to a sufficient description of the risks faced by the company.
- That the statements respected the generally accepted accounting principles and regulations, on the same terms applied in previous years.
- That the principles of equality of treatment for shareholders and transparency of information reported to the markets had been abided by.

The Committee accordingly resolved to recommend that the Board of Directors of Enagás authorize the financial statements for its issue. At a meeting held on 15 February 2016, the Board of Directors adopted the Committee's recommendation and authorized the financial statements for issue in line with the terms indicated by the Committee. The financial statements and directors' report for 2015 were approved at the General Shareholders' Meeting held on 18 March 2016.

In addition to the above task, as in previous years, the Chairman of the Audit Committee, Mr Parellada, intervened at the Ordinary General Shareholders' Meeting of the company held on 18 March 2016, to explain the most important elements of the financial statements to the company's shareholders and to ensure that they had all the information they needed to be able to vote on the financial statements, which were adopted as proposed by the Board of Directors.

Quarterly accounting reviews.

Throughout 2016, the Committee continued to review the interim financial statements and the limited quarterly reports issued by the auditors.

Specifically it analysed, in conjunction with E&Y, the new auditor for financial years 2016 to 2018, the reports issued by the latter for the first, second and third quarters, respectively. Performing these reviews enables the Committee to minimize the impact of any accounting issues arising in the course of the year, and the members of the Committee and Board of Directors to keep abreast of the opinions of the company's external auditors on annual developments in the balance sheet and income statement.

The Audit Committee considers that both the quarterly reviews carried out by the External Auditor and the committee's own analysis of these reports are essential to ensure strict control over the company's accounting, and they also facilitate the issue of an unqualified audit report at year-end.

The Committee also reviews and approves financial information disclosed by the company each quarter, in line with the good corporate governance recommendations it has adopted.

In particular, the Committee prepared a favourable report on the financial statements for the first half-year which, on its recommendation, were approved by the Board of Directors on 18 July 2016.

Internal Control over Financial Reporting System (ICFR).

The Committee has supervised the Internal Control over Financial Reporting System (hereinafter, ICFR) applied by the company. Both the ICFR and its application during the year are described in the Annual Corporate Governance Report which includes the favourable report of the External Auditor as an Annex. The Committee has reported favourably on the proposed Annual Corporate Governance Report.

External auditor.

The Committee has sought to ensure the independence of the external auditor in the performance of its duties. According to the applicable provisions, it has sought the independence declaration and has issued one of its own as set out above. In addition, following the recommendations of the Corporate Governance Code of listed companies, it has produced a specific report on the independence of the Auditor to be made available to shareholders when publishing the notice of the General Shareholders' Meeting. It has also approved the contracts that the company has signed with the external Auditor, ensuring that they do not affect its independence.

After the enactment of the Audit Act 22/2015 of 20 July, which determines the options applicable to Spain from among the provisions of Regulation (EU) No 537/2014 of the European Parliament and of the Council of 16 April 2014 regarding the specific requirements for the legal audit of public-interest entities, the Audit and Compliance Committee announced a call for tenders in order to designate the Accounts Auditor for the upcoming years. The tender process, to which several auditing firms of recognised prestige and ability were invited, took place with the highest guarantees of independence in the work conducted by the Committee. Likewise, during this process the Committee took the necessary measures to guarantee that the firm put forward met the requirements of suitability, independence and compatibility required by the aforementioned provisions.

In view of the proposals presented and other aspects for consideration, the Audit and Compliance Committee, in the exercise of the functions attributed to it under Article 529-quaterdecies 4.e) of the Corporate Enterprises Act, put forward to the Board the nomination of Ernst & Young, S.L. as Accounts Auditors for Enagás, S.A. and its Consolidated Group for the years 2016, 2017 and 2018. The General Shareholders' Meeting held 18 March 2016 adopted the following resolution:

"To appoint as Account Auditors for Enagás S.A. and its Consolidated Group the firm Ernst & Young, S.L. for the years 2016, 2017 and 2018. They are also entrusted with the provision of other auditing services that are required by law and that the company may require until the next General Shareholders' Meeting is held."

Related-party transactions.

The Committee has assumed the functions that the discussed legal and corporate texts attribute thereto in relation to related-party transactions. Under the supervision of the Committee, the company has published the required regular information in this respect, as well as that contained in the Annual Corporate Governance Report.

Following the recommendations of the Corporate Governance Code of listed companies, the Committee produced a report on related-party transactions made available to shareholders when publishing the notice of the General Shareholders' Meeting on 18 March 2016.

Internal auditor.

The Committee approved the Annual Internal Audit Plan for 2016 and the Internal Audit Budget for 2016 in its meeting on 15 February 2016. The Committee has ensured that the Internal Audit Department has adequate human and material resources to carry out its function.

The Director of Internal Audit has reported regularly to the Committee on the development of the Annual Plan and the results of the audits.

Risk control in 2016.

The Audit Committee considers the work on risk control to be particularly important. Periodically, the Chief Executive and the Director of Risks have informed the Committee of the state of risk control and management at the company.

The Chief Executive Director and the Director of Risks presented to the Committee an annual risk report corresponding to 2015 and a report for each of the quarters of 2016, together with a final report for the entire 2016.

Report of proceedings of the Ethics Committee

The Committee has examined the activities of the Ethics Committee, and approved its report for 2016. The Committee has been informed in a timely fashion and in detail regarding the incidents arising in relation to the "Ethics Channel". No significant incidents have been detected during the year in question.

Activities subsequent to year-end

In the opening months of 2016, the Committee continued with its usual activities, in particular assisting the Board of Directors in preparing the financial statements. As in the previous financial year, at a meeting on March 2017 the Audit and Compliance Committee issued a prior favourable report on the 2016 financial statements which will be submitted to the 2017 General Shareholders' Meeting for adoption on 13 February.

And for all appropriate legal reasons, it is hereby stated that the Audit and Compliance Committee approved this report at its meeting held on 13 February 2017.

INDEPENDENT ASSURANCE REPORT ON THE “INFORMATION REGARDING THE INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) SYSTEM”

To the shareholders of Enagás, S.A.:

Scope of the work

We have examined the accompanying information on the Internal Control over Financial Reporting (ICFR) system of Enagás, S.A. (the “Entity”) contained in Section F of the Annual Corporate Governance Report for the year ended December 31, 2016.

The objective of this system is to contribute to the faithful representation of the transactions performed and to the provision of reasonable assurance in relation to the prevention or detection of any errors that might have a material effect of the consolidated financial statements.

The aforementioned system is based on the rules and policies defined by the Boards of Directors of Enagás, S.A. in accordance with the guidelines established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its Internal Control-Integrated Framework (2013) report.

A system of internal control over financial reporting is a process designed to provide reasonable assurance on the reliability of financial information in accordance with the accounting principles and standards applicable to it. A system of internal control over financial reporting includes policies and procedures that: (i) enable the records reflecting the transactions performed to be kept accurately and with a reasonable level of detail, (ii) guarantee that these transactions are performed only in accordance with the authorizations established; (iii) provide reasonable assurance that transactions are recognized appropriately to enable the preparation of the financial information in accordance with the accounting principles and standards applicable to it; and (iv) provide reasonable assurance in relation to the prevention or timely detection of unauthorized acquisition, use or sale of the company’s assets that could have a material effect on the financial information. In view of the limitations inherent to any system of internal control over financial reporting, certain errors, irregularities or fraud might not be detected. Also, the projection to future periods of an evaluation of internal control is subject to risks, including the risk that internal control may be rendered inadequate as a result of future changes in the applicable conditions or that there may be a reduction in the future of the degree of compliance with the policies or procedures established.

Directors' Responsibility

The Directors of Enagás, S.A. are responsible for maintaining the System of Internal Control over Financial Reporting included in the consolidated financial statements and for evaluating its effectiveness.

Our responsibility

Our responsibility is to issue an independent assurance report on the effectiveness of the System of Internal Control over Financial Reporting (ICFR) based on the work performed by us.

Our work includes an evaluation of the effectiveness of the system of ICFR in relation to the financial information contained in the Enagás' Group consolidated financial statements as at December 31, 2016, prepared in accordance with International Financial Reporting Standards as adopted by the European Union and the other provisions of the regulatory financial reporting framework applicable to the Group.

We have carried out our reasonable assurance work in accordance with the requirements established by the International Standard on Assurance Engagements (ISAE) 3000 revised, "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC).

Reasonable assurance work includes comprehension of internal control over financial information contained in the financial statements; risk evaluation regarding possible material errors within them; tests and evaluations on design and daily effectiveness of the system and the use of any other procedures we considered necessary. We consider that our audit provides a reasonable basis for our opinion.

Independence and quality control

We have complied with the independence and other Code of Ethics requirements for accounting professionals issued by the International Ethics Standards Board for Accountants (IESBA), which are based on the fundamental principles of integrity, objectivity, professional competence, due care, confidentiality and professional behavior.
