

Operation Note n°2/2025 - 17.03.2025 (final)

EXCEPTIONAL OPERATING SITUATION – COLD SNAP

As a continuation of the Operation Note 02/2025, and considering the current forecast of the State Meteorological Agency, it is reported that since March 14rd at 6am, **the cold snap episode declared on March 13nd ends** according to the criteria defined in the Action Plan Winter for Operation of the gas system of september 26th 2021.

The **extraordinary final demand increase** with regard to the demand forecast under standard conditions is 403 GWh between March 14th and March 17rd.

For this reason, since March 18rd at 6am, ***the EXCEPTIONAL OPERATING SITUATION – COLD SNAP declared in this Operation Note 02/2025 is over.***

***Cold Snap definition according to established by the 26th September 2021 resolution, from the Dirección General de Política Energética y Minas, por la que se aprueba el Plan de actuación invernal para la operación del sistema gasista:** period in which the gas system temperatura is below the fluctuation range for at least three consecutive days or Protección Civil declares warning for expected meteorological phenomenon as rain, wind, ice, snow, or others.
